Reference: Registration Number 58-R-0041, Annual Report

Dear Dr. Goldentyer,

I have submitted the Annual Report electronically this year, but I wanted to further explain the listing of four dolphins and whales on form 7023a. Mote does not regularly hold cetaceans at its facility. However, in cooperation with the NOAA Fisheries Service, Mote's Dolphin and Whale Hospital is involved with the rescue and rehabilitation of stranded cetaceans. All care and treatment during the temporary holding of these animals follow the guidelines as set forth under the Act. When these emergency medical situations arise, holding of ill/injured animals is accomplished utilizing two quarantine pools and a larger rehabilitation lagoon. Within the past reporting period, October 1, 2001 - September 30, 2002, Mote has held four such stranded cetaceans for medical care (MML 0103a, 0222, 0225a, and 0234).

Sincerely,

Enclosures
